

## Acrylic Industry

Miller Weldmaster – Heat-sealing equipment for the awnings and marine cover makers!

Miller Weldmaster manufactures a variety of equipment for the production of acrylic/PVC awnings and marine covers. Miller will also design a completely automated machine to fit your specific production needs. Miller Weldmaster provides three machines to fit the needs of any awning/marine cover company!

### IMPULSE Extreme

The Impulse Extreme™ is designed to easily weld hems, and overlaps for your acrylic/PVC awnings and Marine covers!

### Impulse Extreme™

For acrylic/PVC awnings & marine covers

The Impulse Extreme™ incorporates an effective thermo-impulse sealing technology with precision controlled welding parameters that will create great looking seams.

- Designed to be used with our Extreme Seam Tape™
- Easy one man operation
- Can weld both PVC and Acrylic fabrics

#### Impulse Extreme™ Seal Types:

Overlap Seal

Hem with Pocket

Rafter Straps

Hem

### 112 Extreme

Available from 3 to 20m long!

The 112 Extreme™ is designed to weld hems, overlaps, and many more on acrylic/PVC awnings and marine covers!

### 112 Extreme™

For acrylic/PVC awnings & marine covers

The 112 Extreme™ is the next generation of the popular 112 Cross Seamer. The 112 Extreme™ will weld acrylic and PVC fabrics. The 112 Extreme™ will produce the fastest seams in the industry! Our dual vacuum and high speed welding system ensures perfect seams at high production speeds.

- Designed to be used with our Extreme Seam Tape™
- Easy one man operation
- Can weld both PVC and Acrylic fabrics
- Fastest welding speeds in the industry

The 112 Extreme™ will weld PVC and Acrylic fabrics

#### 112 Extreme™ Seal Types:

Overlap Seal

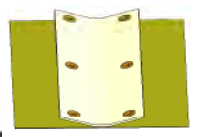

Hem with Pocket

Hem with Rope

Hem

Rafter Straps
