

## Tent Industry

### Miller Weldmaster – Heat-Sealing Equipment For the Production of Tents

Miller Weldmaster manufactures a variety of equipment for the production of tents. Miller will also design a completely automated machine to fit your specific tent production needs. Miller Weldmaster will provide a complete tent welding solutions for the tent manufacture. **Visit [www.weldmaster.com](http://www.weldmaster.com) and pick your industry for more Tent production equipment, and watch videos of these systems.**

## T-300 Extreme Flex™

### T-300 Extreme Flex™ For the Manufacturing of Tents

The T-300 Extreme Flex™ will allow you to seam your panels together, hem the ends, and produce keder for tension sidewalls. The T-300 Extreme Flex™ has the capability of producing a complete tent from start to finish.

The T-300 Extreme Flex™ is designed to weld all the seams needed to produce your tents!

#### T-300 Extreme Flex™ Seal Types:

Pole Pocket

Rope and Hem

Overlap

Keder

Hem

## 112 Extreme™

### 112 Extreme™ For the Manufacturing of Tents

The 112 Extreme™ is the next generation of the popular 112 Cross Seamer. The 112 Extreme™ is the fastest seaming technology in the industry, able to weld long straight seams up to 55 ft./min. (17 m/min.) The 112 Extreme™ can not only seam you panels together but also weld keder to those panels. The 112 Extreme™ is also equipped with a laser-guided cutter to cut panels.

The 112 Extreme™ is designed to weld long straight seams faster than any other technology in the industry!

#### 112 Extreme™ Seal Types:

Pole Pocket

Rope and Hem

Overlap

Keder

Hem

Available from 3 to 20m long!

## T-500

### T-500 For the Manufacturing of Tents

The T-500 will allow you to seam your panels together, hem the ends, and produce keder for tension sidewalls. The T-500 has the capability of producing a complete tent from start to finish.

The T-500 is designed to weld all the seams needed to produce your tents!

#### T-500 Seal Types:

Pole Pocket

Rope and Hem

Overlap

Keder
